

ABOUT ME

Creative Full-Stack Web Developer who turns ideas into seamless digital experiences — crafting intuitive frontends with React/Next.js and robust backends with Node.js and MongoDB. Curious, self-driven, and always learning.

WORK EXPERIENCE

SELF-DIRECTED
Injibara, Ethiopia
Feb 2024 – Present

Independent Full-Stack Developer

- Designed and deployed multiple full-stack apps using React, Next.js, TypeScript, and Node.js to simulate real production environments.
- Built and integrated RESTful APIs with PostgreSQL and MongoDB for authentication, dynamic content, and data persistence.
- Practiced professional workflows: Git/GitHub version control, code reviews, and structured documentation.
- Improved performance through code splitting, query optimization, and mobile-first UI/UX with Tailwind CSS.

EDUCATION

UNIVERSITY OF INJIBARA
Injibara, Ethiopia
2022 – Present

B.Sc. Software Engineering

- Coursework: Web Development, Database Systems, Data Structures & Algorithms, Software Design, UI/UX, OOP.
